Education

Bachelor of Technology in Computer Science & Engineering (CGPA: 8.92)

Aug 19 - Jul 23

Maharaja Agrasen Institute of Technology

New Delhi, India

Class 12th PCM (Percentage : 90.2%)

Mar 18 - May 19

Lovely Public Sr Sec School

New Delhi, India

Skills

- **Languages:** C++, SQL
- **Databases:** PLSQL, MongoDB
- **Web Technologies:** React, Redux, Express, Node.js, MongoDB, Typescript, CSS, javascript, REST APIs, Git, AWS,HONO,Prisma
- **CS Fundamentals:** Object Oriented Programming (OOPS), DBMS, Operating Systems, Computer Networks

Experience

Frontend Developer, Glincker

Aug 2023 - Present

Tech Stack: Reactjs, css, vanillajs

Remote

- Utilized React, HTML, and CSS for frontend development during my tenure as a frontend developer
- Worked with clients like WEBANDESIGNS and many more and have developed frontend end interfaces in react and scaled application for public domain traffic.
- Successfully scaled applications to accommodate high volumes of public domain traffic and increasing traffic by roughly 20%.

Backend Developer, MBK HealthTech

Oct 21 - Dec 21

Tech Stack: JavaScript, Node.js, Express.js, JWT, Postman

Remote

- Designed and implemented secure authentication APIs (login, register) utilizing Bearer token authentication.
- Optimized the efficiency of APIs for fetching user-doctor connections and waiting list details.
- Utilized Socket.io for real-time communication, ensuring prompt notifications and responsive doctor-patient interactions.
- Spearheaded the design and implementation of secure authentication methodologies for user access.
- Enhanced system responsiveness and user engagement through real-time communication features.

Projects

Shopping App [GitHub](#)

Jul 23 - Aug 23

Tech Stack: React, Redux, Strapi, JavaScript, CSS

- Developed a real-time shopping app with seamless cross-category browsing, cart functionality, and Strapi-enabled backend for optimal data retrieval.
- Implemented **Strapi for backend services**, reducing data retrieval time & enhancing responsiveness.
- Improved **user satisfaction** & engagement metrics through desktop & mobile device responsiveness.

StoryHub(Medium Like Application) [Live Link](#) [GitHub](#)

March 2024 - April 2024

Tech Stack: React,typescript,prisma,hono,cloudflare

- Implemented a medium like application where users can signup and create new blogs as well as read existing blogs.
- Created my own **npm package** and used it in my application for both frontend and backend
- Used prisma as an ORM for fast data querying as well as deployed backend code on cloudflare for smooth development of backend

Achievements

- * **LeetCode Achievement (2023):** Attained an annual batch recognition from LeetCode for consistent problem-solving, placing among the top **0.1%** of users globally.
- * **Meta Hackercup Performance:** Advanced to [Round 2](#) in Meta Hackercup, securing a commendable rank of **3373** in the qualification round and **3533** in **round 1**, surpassing participants worldwide.
- * **Impressive performance in LeetCode's Biweekly Contests:** **2369th** out of 26,404 participants in Contest 110 and **2371st** out of 21,482 in Contest 116.
- * **Competitive Programming Ratings:** Achieved a LeetCode rating of **1700+** ranking in the **top 11%** among 300,000 users.Earned a **6-star** proficiency in problem-solving on HackerRank.
